

1 Meridian Technical Charter High School

2
3 EDUCATIONAL PHILOSOPHY

4 Series 100

5
6 Policy Title: Mission Statement – Vision Statement

Code No. 100

7
8 MISSION STATEMENT:

9 The Meridian Charter School employs the best practices and innovations of today and tomorrow to
10 provide a quality educational experience for every student. We emphasize the lifelong application of
11 learning, coupled with intelligent risk taking, the encourage participation as a productive member of this
12 learning community and society.

13 VISION STATEMENT:

14 The school encompasses an open building design which allows for delivery of and integrated technical
15 and academic curriculum, a flexible school day that allows for collaboration between faculty, students
16 and community, and projects that apply student’s knowledge and skills. An emphasis on continuous
17 improvement will allow students to be involved in planning and managing their own learning. A
18 technology rich environment will provide the learning tools as well as develop the skills and industry
19 certifications necessary to work in today’s technical careers. Through a variety of performance and
20 exiting exams, students will demonstrate competency and receive credits required for high school
21 graduation and college admittance. Students will experience a job shadow in the junior year and spend
22 part of the school day in an internship during the senior year. Students will exit this high school having
23 completed 12 college credits.

24 Faculty, parents and students will serve on an Oversight Committee that will oversee the day to day
25 operations of the school. This committee reports to the school and will be encouraged to participate as
26 volunteers in all facets of the school. Business and industry will also be a part of this school. Students
27 will have industry e-mail mentors and teachers will be provided with industry mentors.
